Abstract

This discussion will highlight the nature of connectivity between EBA walled settlements in the fourth and third millennia BCE southern Levant. Drawing on case studies presented in the first half of the "Connecting Socio-Economic Spheres in the EBA Southern Levant" workshop, I will explore how archaeologists reconstruct EBA social, economic, and political interaction spheres through the lens of connectivity, mobility, and placemaking in settlements and cemeteries.

Keywords

Southern Levant, Urbanism, Production, Consumption, Connectivity

Session

6. Life and death: Human behaviour and practices
