## Abstract

With the kind permission of Prof. Adelheid Otto, the field director of the excavations in Fara/Šuruppak, this poster will present the results of Area 6 from the spring campaign of 2024. Area 6 is located at a point on the tell where a large number of clay tablets were found in the excavations by the German Oriental Society in 1902/03. The new excavations now aim to document the architecture associated with the texts. The poster will provide an overview of the architecture and finds discovered so far.

## Keywords

Iraq, Early Dynastic Period, Fara, Excavation, Architecture

## Session

1. Advances in Near Eastern Archaeology

## Type of paper

Poster session
